INTERNATIONAL EXPO ON MINES AND MINERALS

**10th - 13th December, 2026**

Andhra University Engineering College Grounds  
Visakhapatnam, Andhra Pradesh, India

**Andhra Pradesh invites the world to discover the strength beneath its land  
and the opportunities beyond it.**

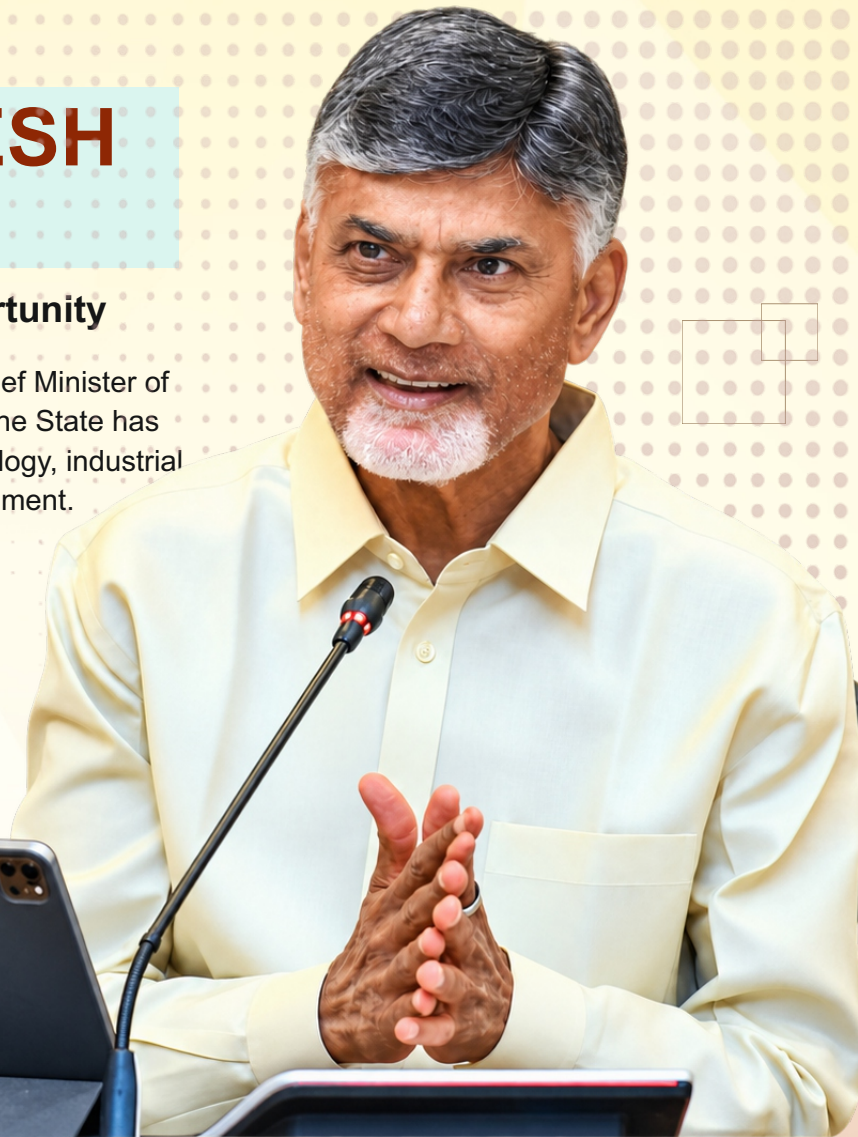

**A global platform bringing together the mines, minerals, natural stone,  
technology, infrastructure and allied industries.**

# BUILDING THE ANDHRA PRADESH OF TOMORROW

## Driving Growth, Investment & Opportunity

Under the visionary leadership of the Hon'ble Chief Minister of Andhra Pradesh, Sri Nara Chandrababu Naidu, the State has placed strong emphasis on infrastructure, technology, industrial development and improving the business environment.

The development of Amaravati as the People's Capital reflects this larger vision a future-ready capital conceived around modern infrastructure, sustainability and long-term growth.

## MINERAL STRENGTH. STRATEGIC ADVANTAGE.

Andhra Pradesh occupies a distinctive place on India's mineral map, with a rich variety of stones, minerals and other natural resources supporting industry, infrastructure and economic activity.

From resource potential to industrial opportunity, Andhra Pradesh is positioning its mineral strength for the next phase of growth.

**Lithium and Gallium  
Exploration**

**India's First Private  
Gold Mine**

**Emerging Technologies for  
Sustainable Mining**

Its 1,053-kilometre coastline, complemented by an extensive port network, gives the State a strong logistical advantage and connects its mineral and industrial ecosystem with markets across India and overseas.

**EXPANDING THE  
MINERAL FRONTIER**

**From natural stone to strategic mineral resources, Andhra Pradesh offers a broad resource base with significant potential for value addition, investment and industrial development.**

# INTERNATIONAL STONE FEST - 2026

**Envisioned as a world-class platform bringing together leading companies, industry experts, investors and stakeholders from India and across the globe.**

The Expo will showcase the wealth of stones and minerals, along with the technologies, machinery, equipment, solutions and services shaping the future of the industry.

## **Global Exhibition**

Stones, minerals, machinery, technology and industry solutions.

## **Industry Seminars**

Knowledge exchange on developments, technologies and opportunities.

## **B2B Networking**

Direct interaction between buyers, sellers, investors and industry leaders.

## **Young Minds Connect**

Exposure to careers, technology and opportunities in the mines and minerals sector.

### **Mines & Minerals**

Metallic and non-metallic minerals, industrial minerals, strategic mineral resources and associated products.

### **Natural Stone**

Granite, marble, quartzite, limestone, sandstone and other natural stones, blocks, slabs, tiles and value-added products.

### **Machinery & Technology**

Mining, quarrying, cutting, processing, polishing, handling, automation and advanced production technologies.

### **Tools, Chemicals & Consumables**

Diamond tools, abrasives, chemicals, adhesives, surface treatments and industry consumables.

### **Infrastructure & Applications**

Stone and mineral applications across construction, architecture, infrastructure, interiors and real estate.

### **Services & Solutions**

Exploration, consultancy, logistics, testing, certification, environmental management, safety, packaging and transportation.

**4**

Eventful Days

**120000+ Sft.**

Expo Area

**144+**

Business Stalls

**8000+**

Expected Footfall

# International Stone Fest 2026 brings together organisations, decision-makers, buyers, professionals and industry leaders from across the mines, minerals, natural stone and allied value chain.

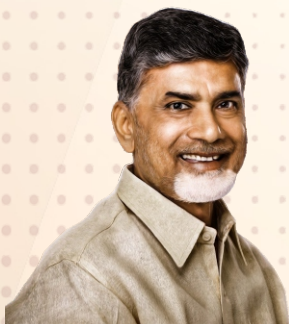

## EXHIBITOR PROFILE

- Participation is expected from:
- Mine and quarry owners
- Mineral producers and suppliers
- Granite and natural stone companies
- Stone processors and exporters
- Mining and mineral-processing companies
- Machinery and equipment manufacturers
- Mining technology and automation companies
- Tools, abrasives and consumable manufacturers
- Geological and exploration service providers
- Heavy equipment companies
- Logistics and port service providers
- Infrastructure and construction companies
- Government departments and agencies
- Research and academic institutions
- Industry associations and trade bodies

## VISITOR PROFILE

- Mining and mineral industry leaders
- Quarry and stone-processing companies
- Importers, exporters and traders
- Architects and interior designers
- Builders and developers
- Infrastructure and EPC companies
- Real-estate organisations
- Engineers and technical professionals
- Procurement and sourcing professionals
- Investors and entrepreneurs
- Government representatives
- Academicians and researchers
- Geologists and mining professionals
- Students and young professionals
- Domestic and international business delegations
